

BREAK THROUGH YOUR CLOUD WALL...

...without compromising performance or security

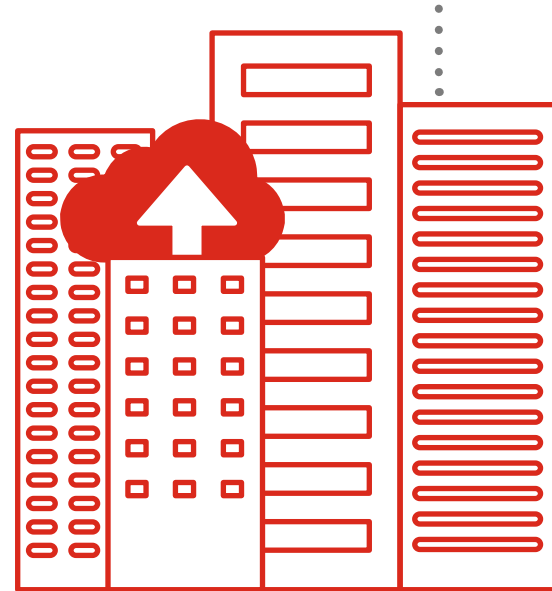

High performance on a resilient and secure hosted environment

Cloud services are quick to deploy and easy to change, but your transition to the cloud may not be as fast or flexible. Concerns over performance, application resiliency and protecting highly sensitive data can make it hard to move your cloud strategy off the drawing board.

That's why private cloud adoption is through the roof ...

But you still need the right infrastructure and tools to make your private cloud transition a success.

81%
of enterprises have a multi-cloud strategy¹

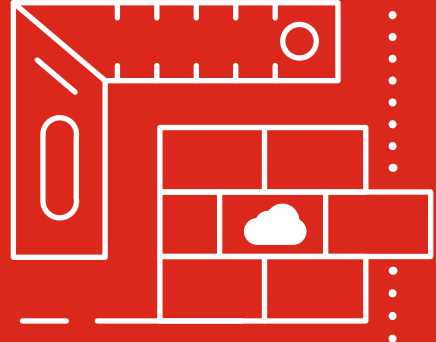

LAY THE FOUNDATION ...

Managed Cloud – Hosted Private Cloud from Sungard AS

Combine the scalability, agility and cost benefits of cloud with the security, control and performance advantages of a fully dedicated environment – with integrated business continuity solution, not simply an afterthought.

FORTIFY THE INFRASTRUCTURE ...

Our private cloud infrastructure includes these solutions from Sungard AS partners:

VMware NSX

A network virtualization and security platform that breaks through physical network barriers

VMware vRealize Automation

Cloud Automation tool of the modern Software-Defined Data Center

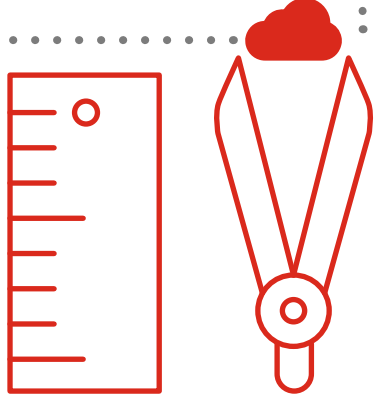

Dell EMC Compute

Industry-leading servers for reliable connectivity and maximized application performance

Dell EMC Storage

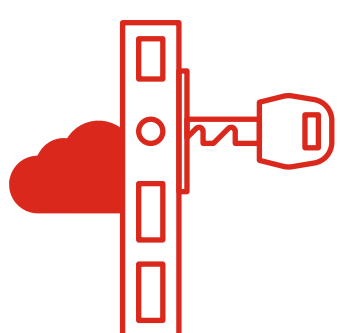

Titanium standard physical and virtual storage options across multiple IOPS performance tiers

GET BUILT-IN BENEFITS ...

Control

Fine-grain management over how, when and where cloud resources are provisioned and consumed to support specific workloads and applications

Security

Fully dedicated resources in both physically and virtually isolated environments to meet data protection, privacy and compliance needs

Performance

A single-tenant cloud delivers performance you can count on

Resilience

Fully automated Business Continuity, stateful managed recovery solution safeguarding your designated virtual HPC assets

PLAN YOUR MOVE ...

When you choose Sungard AS, you also benefit from integrated security solutions, world-class recovery services and experts who operate and manage the environment for you.

So call us at 888-270-3657 and start planning your transition to Managed Cloud – Hosted Private Cloud today.
